APPRECIATION TO THE P.-T. A. FOR HIGH SCHOOL SIDEWALK

It seems as though we are continually being deeply grateful to the Marlin P.-T. A. for some benevolence or other that is bestowed upon the Marlin schools by the organization. At the present time, however, we are particularly moved by a special act of kindness that has been shown the students and faculty of the Marlin High School, visibly, the donation of a sidewalk to the High School building.

The need that we have had for a sidewalk on the High School campus is well known to all. The disagreeableness of having no walk across the grounds in bad and rainy weather had a sore need to be corrected. The addition of a sidewalk has been a great convenience in this respect.

Besides the usefulness of the sidewalk, we are aware of the attractive appearance it lends to the campus. It goes quite a long way toward accentuating the attractiveness of our school building, and we consider ourselves very fortunate in having it.

For this kind donation, we acknowledge our gratitude not only to the P.-T. A., but also to those who helped in selling tags, giving donations, and otherwise cooperating with the P.-T. A. to give us this highly appreciated walk which you see in the picture.
