Gathering of the Republican State Convention at Fremont.

A Large Gathering and the Best of Feeling Prevailed.

Hitchcock in the Rear, and Victory for the Boys of Nebraska.

Fremont, May 24.

The convention met pursuant to call and was called to order by C H Gere, Chairman of the State Central Committee.

After which the convention proceeded to elect a temporary chairman, which resulted in the election of H C H Van Wyck, of Otoe county by 10 majority.

Committee on credentials being appointed, reported from Douglas county 5 for and 8 against the Hitchcock delegation, and after a sharp and heated contest, both delegations from that county were thrown out, after which the convention proceeded with the regular business.

The question of admitting a delegate at large from each county being submitted, the convention declared by unanimous consent that a delegate at large be admitted from each county, and entitled to a voice in the convention.

Gen. Van Wyck, being elected chairman, made a very fine speech, setting forth that the hope of the Republican party was self-purification, and that its mission was not ended, which was received with earnest and loud applause.

The convention then proceed to the election of delegates to attend the National Convention at Cincinnati, which resulted in the choice of:

N. R. Pinney of Otoe county;
R. T. Brown, of Clay county;
L. W. Osborn, of Washington county;
A. Nance, of Polk county;
H. S. Kaley, of Webster county,
Chas. F. Bayha, of Cuming county.

Resolution declaring in favor of James G. Blaine, for president of the United States, was then adopted. A new State Central Committee was then selected with three from each Judicial district, with Daws, of Crete, as chairman, after which the convention adjourned sine die.

The following from a speech by ex-Governor Saunders at the Republican County Convention in Omaha, coming from the source it does, will lead thinking minds to work on the political problem now up, and the merits of these men who claim to be regular republicans will be shown up. Such men as figured in the Omaha convention are too weight

my care, I will take pleasure in forwarding to Philadelphia without expense to the persons donating them. May I ask your co-operation in this matter? Will you see what can be done in your vicinity, and get your people interested in the matter? * * * *

The exhibition will be made by the State, not by any railroad company. We are only aiding in the work, as every one interested in the progress of the country should do. Yours truly,

A. E. TOUZALIN, Land Com.

The Nebraska Editorial Association convened on the 23d, and re-elected Webster Eaton, president; Thos Wolf, vice-president; J. A. McMurphy, sec'y; E. M. Cunningham, treas. A good attendance and a jolly time was had.

Terrible wind and hail storms, flood, &c., seems to have been the order east and north east of us, Saturday and Sunday last, while the same storm, but in a very mild form comparative, did not reach us until Monday. It hailed till the ground was covered four inches deep, some of the hail large as a base ball, weighing a pound apiece, in southern Minnesota; 50 miles west of Sioux City, there was a tremendous storm, tearing things to pieces at a lively rate; parts of Wisconsin, Iowa, and Illinois the storm was more or less disastrous, and even as far east as Pennsylvania, whether the same storm or not, they had something of the same sort.

Native Lime.

There are considerable quantities of what is known as "native lime" to be found throughout the Republican Valley, which, it is believed by many, to be good for something. To all appearance plastering done with it is equal to that of regularly burned lime, but is rather soft and lacking in firmness to resist water. Now, we believe, that by putting this lime through some process, or adding to it cement, plaster, or some chemical preparation, it could be used and would be as durable as the best of lime, and be far the cheapest. Would it not be well for our Agricultural Society, in making up its next premium list, to offer a liberal premium for the best recipe for preparing native lime, both burned and dug, so that it will be equal or superior to the best lime, and to cost less per bushel than it can be shipped from abroad?

The published experience of parties who have used it to any degree of satisfaction, will doubtless be gladly hailed by many readers of the GUARD. H.

S. S. Organization.

Pursuant to a previous call, on last Sunday at 3 o'clock, after prayer by Judge Thompson, of Harlan county, the congregation proceeded to organize by calling Judge Thompson to the chair and electing Dr. Loyd Superintendent; Mrs. C. H. Walker Asst. Supt.; Mrs. Helen M. Males, Sec.; Exum Bond Treas., and Mrs. Mary Ashby. Librarian.

A library and papers have been ordered for the use of the school, and want now to collect money sufficient to buy singing books for the school. Mrs. Walker will teach the children singing; assisted by W. Crosser. The school want all to come, bringing along their singing books, at 3 p. m., Sunday.

or cuttings, and were so destroyed by inevitable accident in such year.
3. That it shall not be necessary to plant trees, seeds, nuts or cuttings in one body, provided the several bodies, not exceeding four in number, planted, by measurement aggregate the amount required in time required by the original and amended act.
Passed the House of Representatives March 2, 1876.

TO SCHOOL OFFICERS.

Sec. 3, page 116, Session Laws 1875, amending Sec. 31, page 970, General Statutes, provides that "any school district may, at any annual or special meeting, impose a tax on the taxable property of the district in any amount not exceeding twenty-five mills on the dollar, on the assessed valuation of the property of the district, and such tax, when voted, shall be reported by the district board to the county clerk."

Sec. 55, General Statutes, p. 970, provides, "said board shall, between the first Monday and third Monday in June in each year, make out and deliver to the clerk of each county in which any part of the district is situated, a report in writing, under their hands, of all taxes voted by the district during the preceding year."

It is requested that any action required under the foregoing provisions be promptly taken at the time provided by law, as any delay not only causes great inconvenience in making up the tax list, but may deprive the delinquent district of a much needed revenue.

Very Respectfully,

J. R. McDONALD, Co. Clk.

GEO. W. SHEPPARD, Deputy.

The following from a speech by Governor Saunders at the Republican County Convention in Omaha, coming from the source it does, will lead thinking minds to work on the political problem now up, and the merits of these men who claim to be regular republicans will be shown up. Such men as figured in the Omaha convention are too well known in the State to have any weight in their claim of regular republicans:

Governor Saunders said that he had been a member of the Republican party ever since it sprang into existence. He had been one of the organizers of the party in Iowa in 1855, and fought its battles through thick and thin; and it was certainly a very remarkable piece of impudence that he should now be placed upon the list as an irregular Republican by a man (referring to Brooks, editor of the Hitchcock organ) who had not been long enough in Omaha to be dry behind the ears. He said the Republicans of that county were determined to resist the dictation of corporations which seek to fasten a most corrupt gang upon the people in official positions. The action of these men in this convention shows that they are determined to rule or ruin. They had been offered a fair proposition to decide the choice of the convention by ballot, and they rejected this proposition, evidently because they did not dare to trust their cause to the convention. They went through a farcical performance, and called it an election, and then, inside of ten minutes belted the convention. He believed that when the matter should be brought before the State Convention, the Republicans of the county, whose delegates were then present, would be sustained.

For the Centennial.

The following circular from the land department of the B. & M. R. R. Co. in Neb., has been received by Mr. C. H. Walker, of this place, to whose care articles intended for the Centennial should be given. This is almost the last day in the morning, but by prompt action, this county can yet be represented at the great show:

As you will have noticed in the newspapers, Gov. Garber has gone to Philadelphia, and has succeeded in making arrangements by which the State of Nebraska will be enabled to make an exhibition of her varied resources at the Centennial. In order to make the exhibit a credible one, it will be necessary to add largely to the stock of agricultural products which have been already collected, as well as to collect other specimens of everything which might be of interest in the exhibition or add to its attractiveness. Specimens of all kinds of grain and vegetables, with statement of yield per acre, when planted, when harvested, where and by whom grown, will be of interest. Also, specimens of grasses, fruits, minerals, samples of wool, and anything else which may occur to you, All articles which may be sent here to

Librarian.

A library and papers have been ordered for the use of the school, and want now to collect money sufficient to buy singing books for the school. Mrs. Walker will teach the children singing, assisted by W. Crosser. The school want all to come, bringing along their singing books, at 3 p. m., Sunday.

TIMBER CULTURE ACT.

The following bill has passed both houses of Congress on the recommendation of Senator Paddock, from committee on public lands. These amendments to the Timber Culture Act are such as every one will admit were needed, and the efforts of the Senator will not be forgotten by those of the State who readily recognize in his actions a desire to do credit to himself and benefit his constituency:

An Act

To amend the act entitled "An act entitled 'An act to encourage the growth of timber on western prairies,'" approved March 13, 1874.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That section three of the act entitled "An act to amend the act entitled 'An act to encourage the growth of timber on the western prairies,'" is hereby amended by adding thereto the following further proviso: Provided further, That whenever a party holding a claim under the provisions of this act, or whenever making final proof under the same, shall prove by two good and credible witnesses that the trees planted and growing on said claim were destroyed by grasshoppers during any one or more years while holding said claim, said year or years in which said trees were so destroyed shall not work any forfeiture of any rights or privileges conferred by this act; and the time allowed by this act in which to plant the trees and make final proof shall be extended the same number of years as the trees planted on the said claim were destroyed in the manner specified in this section.

2. That the planting of seeds, nuts or cuttings shall be considered a compliance with the provisions of the timber culture act: Provided: That such seeds, nuts or cuttings of the kind and for the purpose contemplated in the original act shall be properly and well planted, the ground properly prepared and cultivated; and in case such seeds, nuts or cuttings should not germinate and grow, or should be destroyed by the depredations of grasshoppers, or from any inevitable accident, within one year from the first planting: Provided further, That parties claiming the benefit of the provisions of this act shall prove, by two good and credible witnesses, that the ground was properly prepared and planted in such seeds, nuts

vs.

Richard Noble and A. H. Buck, partners, formerly doing business under the firm name of R. Noble & Co., defendants.

The above named defendants will take notice that they have been sued by the above named plaintiffs, by the filing of a precept and petition in the district court of the 5th Judicial District, in and for said county of Franklin, and that an order of attachment has been issued in said cause, and that George Buck, Jr., of Bloomington, Nebraska, has been duly notified to appear as Garnishee in the premises; that it is the object and prayer of said petition to recover judgment against the defendants in said action for the sum of twenty-eight hundred and eighty dollars and eighty-seven cents and interest from January 7, 1876, for goods sold and delivered by said plaintiffs to said defendants, at their request.

Said defendants are therefore hereby notified that they are required to file their answer to said petition in the office of the Clerk of said Court on or before the 19th day of June, 1876, or said petition will be taken as true and judgment rendered accordingly.

Witness my hand and the seal of said Court at Bloomington, Neb., this 2d day of May, A. D. 1876.

VOL IV NO 7

Saturday, May 27th, 1876.

LOCAL MATTERS.

Mr. Burr, of Lincoln, called on us today.

Weather warm to-day, with some indication of more rain.

Lot more strangers in town, looking for land and locations.

Illustrated papers are teeming with "Centennial openings."

Ulrich Kaelmol has painted and put his dwelling in good appearance.

M. S. and E. S. Budlong, of North Franklin, are in town.

The gentlemanly Receiver and Register of the land office, returned from Fremont Thursday.

The party at Fred Pilger's, last night, was pronounced a success in every particular.

Friends of the Sunday School, will meet at the McGown building at 3 p. m. to-morrow. Everybody attend.

James Rice and Joseph Nead formerly of Beardstown, Ill, arrived here this week. Will probably locate in this county.

O'Sullivan is the best feeling man in the county, because he is succeeding in getting so many new settlers to his pet town, Riverton.

Prof. Thompson, of Harlan county, exhibited in town, last Saturday, three buffalo, an elk, and deer were among his collection, which was pronounced fine.

Dan. L. Ashby, has ornamented his grounds in front of his house, by arranging two large boxes of dirt in which to plant flowers.

J. L. Cook, Dr. A. J. Weston and S. C. Sutton, were appointed commissioners to appraise the school lands of the county by the board, last Saturday.

The editor pulled out by the early "train" the first of the week for Fremont. He will visit his pa and ma before returning, and not be at his post until next week.

Messrs. H. C. Wells, A. B. Stevens and A. J. Wallingford, of Grant precinct, were in to see us Saturday. They were interested in school district matters, and

The publication of the paper this issue has been delayed a day, for the purpose of getting proceedings from the convention from the editor.

Deputy Clerk Shep. and Col Gage were seen riding off towards Riverton Saturday night, and it was presumable that "masons" are about to be rallied again.

The Omaha Bee sets Van Etten up in lively shape, and some of Van's friends(?) in the Valley would appreciate the remarks. He was one of the chief figurers in the "regular Hitchcock" delegation in the Douglas county convention at Omaha last week.

Mr. Kern reports the he hitched up his horses Thursday for the first time in six weeks. Diphtheria was the trouble, and he is of the opinion the epidemic will be general among horses. He fed bran exclusively, laireting them on grass when dry, and found in severe attacks that smoking old leather afforded material relief.

I offer as a premium to any farmer in Franklin county, one pair of bronze turkeys, for the most and best corn produced from the planting of one ear of corn. The method of cultivation, amount of ground, cost of production and not less than half bushel of the same on exhibition at the next Fair. Time of planting: last day of May or first day of June. I reserve the right to compete. J. F. Pugsley.

We had the pleasure of meeting Mr. G. W. Garrett, of Rushville, Ill., father of Peter and A. W. Garrett, of Macon precinct. Mr. G. speaks in glowing terms of our county, and shows his appreciation of Neo. by investing in real estate in this county. We extend to him a hearty welcome.

Mr. M. D. O'Sullivan, of Saratoga, N. Y. and one of the new settlers in Grant precinct, dropped in to see us Saturday. He has just located and will be on with his family during the season. He has traveled through Minnesota, Iowa and a number of States, but finds Neb. ahead of any of them. This gentleman is among those induced to Riverton by Mr. M. O'Sullivan, but is no relation, we believe.

Crops this year have so far a greater advantage for growing than any previous year to our knowledge in this State, and are apparently taking advantage of the situation, especially small grain, as little or no further rain will be required to insure good crops of that. Corn, though doing well, is not far enough along to give any predictions.

PHOTOGRAPHY.—One of the most commendable institutions of our embryo city, is the new photograph gallery, just completed by Mr. Coe, on the west side of the square. The building has been erected especially for the business by the above gentleman, and is so arranged as to be neat in appearance and convenient for use, and does credit to the man, in knowing what he wants. When he opens out, which will be in a few days, we may expect some fine work, and we hope he will meet with the liberal patronage his enterprise deserves.

CHEAPER THAN EVER—At Buck & Greenwood's you can buy as follows:

And Dressmaking.

Mrs. J. T. Kellogg has Just returned from Toledo Ohio, and brought with her a choice assortment of Millinery goods, consisting of Hats, Ribbons, Flowers, Veils, &c &c., which she will have at her residence at Bloomington, Nebraska, and will sell them at prices to suit the times. Those who intend to purchase for the spring wear should call soon and get the first selections.

Notice

Is hereby given that I will examine all persons who may desire to offer themselves as candidates for teachers in this Franklin county, on the 1st Saturday of each month, at the School House, in Bloomington, Nebraska. Examination to commence at 9 o'clock a. m.

MARY S. DECLEBQC, Co. Supt. Pub. Inst.

Jardon P. Smith, the herder at Kearney, was found guilty of murder in the second degree, at Lowell during late court there, where his case was tried on changed of venue. He immediately applied for a new trial, hoping to get clear entirely.

A young man just in from the b. h. s received several bumps last Saturday night, just for preparing a clean shirt for Sunday at some other man's expense. He has since "lit out" for Kansas, or some other far off 'countrie.'

A. J. Allen has received a further supply of new goods, and has fitted up a complete line of shelves, and is now ready to serve customers with anything in the dry goods and grocery line, at very low figures.

This part of the country was visited with a soaking rain, which lasted from about 5 p. m. Monday till about the same time next day. Surely there is no serious want of rain at present.

Outbreaks in the regular(?) Hitchcock republican ranks in the State are very simultaneous, and but for Haskell, who skipped out of Cheyenne to save his neck, Van Etten and a few more trumps of the that color, the game would end, but as it is we suppose it may be prolonged for some time yet.

Mark Warner, of the Red Cloud Chief, was married to Miss Laura Munsell, of that place recently.
