

New Jersey, County Marriages, 1682-1956

The description below is direct from the LDS Website for the above data.

Unfortunately, it appears that the Abstractors who did the work did not abstract from the images, they took the information from the Indexes in the front of the books on Microfilm. So, if you search by the traditional method, using the LDS Search function, you do not get all the info, you have to go to the Image. Nothing wrong with that, except that when you do a cut and paste, you still have to add the date of marriage from the Image. And... the names can be incorrect as well. Given the fact that each Volume has an index, you can quickly go through them, find your folks and access the image without the frustration of the Search Function.

I have taken the time to identify each Digital Folder and it's contents. At the beginning of each folder is the LDS Film Number.
