

St. Mary's Cemetery

In 1996 and 1997 members of the Carroll County Genealogical Society did a very thorough job of copying inscriptions in the cemetery. Don Dutterer, custodian of the cemetery, donated copies of his records to supplement the Society's work. Mimi Ashcraft checked the 4 rows of old tombstones against earlier information provided by Thomas Hollowak, Wendy Bish and Larry Bolin. Anyone interested in researching burials in this cemetery should consult all the lists available. No matter how carefully the inscriptions are copied, mistakes are made and words/letters interpreted differently.

Thomas Hollowak reported some tombstones in the old portion of St. Mary's which were never seen by either Bish/Bolin (1987) or Ashcraft (1997). He omitted birth dates in his work published in the Maryland Genealogical Society Bulletin. This is unfortunate because the dates act as a cross-check on the age at death. A significant number of errors were detected in 1997. The work of Bish/Bolin was more accurate and thorough. Ashcraft used Hollowak's list as the basis for her work. She checked all stones found in 1997, corrected mistakes, added birthdate information and supplied more details when available. She then compared her readings to those of Bish/Bollen. Tombstones that Hollowak reported (but which weren't seen by anyone else) have been identified with an asterisk in Ashcraft's 1997 version. The information can't be verified.

The Carroll County Genealogical Society thanks Don Dutterer for his help and for granting permission to copy inscriptions. We hope researchers will find the information in this book to be useful.
