SATURDAY.....JULY 23, 1877

WHEN TROOPS SHOULD BE USED TO QUELL RIOTS.

The San Francisco Post asks: When should military be employed to repress riot? This question has assumed great importance owing to the murderous conflict in Pittsburg, brought about by the Philadelphia militia firing upon an excited but unarmed mass of citizens, densely packed, and incapable of resistance.

The Great Wall Of China.

The Great Wall of China was measured in many places by Mr. Unthank, a recent traveler. His measurements give the height at 18 feet, width on top 15 feet. Every few hundred yards there is a tower 24 feet square and from 20 to 45 feet high.

Telegraphic Paragraphs.

Several people were killed Thursday by a falling bridge over the Little Miami river, Ohio. General Sheridan is ordered to Chicago without delay. Indian troubles in the Black Hills are becoming very serious.

STATE NEWS.

One thousand young catfish are to be planted in the lower portion of Reese river. The Humboldt river is lower than it has been at this season of the year since 1864. About 400,000 pounds of wool will be shipped from Battle Mountain during the present season.

NOTICE TO SELL REAL ESTATE. IN THE DISTRICT COURT, THIRD JUDICIAL DISTRICT, State of Nevada, County of Lyon. In the matter of the estate of J. J. Bay, deceased.—It appearing to me by the petition of H. W. Bay, administrator of the estate of J. J. Bay, deceased, praying for an order to sell real estate, that it is necessary to sell the whole of the real estate of said deceased, and the debts, charges and expenses of administration, and that on the 11th day of October 1876, the Court made an order authorizing and directing said administrator to sell the whole of the real estate of said deceased for the reasons and purposes aforesaid, but that said administrator was unable to sell said real estate and that the same is still undispensed of, it is therefore ordered that all persons interested in said estate to appear before the said District Court on Monday, the 9th day of August, 1877, at 10 o'clock A. M., at the Court Room of said Court in Dayton, Lyon County, Nevada, to show cause, if any they have, why an order should not be made authorizing said administrator to sell the whole of the real estate of said deceased.

J. H. SEWELL, District Judge, Dayton, June 29, 1877.

THE Reno Journal, discussing railroad questions, says: The fact that the people are powerless against an array of moneyed influence dooms to magnify the evils and encourage men in the belief that through corporations they can rule. Then comes the race amongst giants. Cut-throat competition is made possible by the power to bleed the people. There must be battles of money as there are contests between principles. The largest safe wins, and the vanquished goes to the wall with debts amounting to millions. In struggling for control and warding off bankruptcy the old source is appealed to—the people bleed freely—but a time comes when the fountain is dry and then the directors flee, and the consequences of their failure descend upon the people. The possible harm which corporations may do should alone be a reason for curtailing their power to reasonable limits.

POLITICAL consistency and the saving grace of partisan platforms is significantly set forth in the muddled condition of Iowa Republicanism. The candidate for Governor is a wholesale liquor dealer, and the platform he stands on favors prohibition. The convention favored inflation, but the Legislative ticket to be chosen is expected to re-elect Senator Allison without opposition, and Mr. Allison is an avowed hard money man. An anti-Hayes Republican introduced a Hayes resolution in the convention for the purpose of having it voted down, and succeeded in his effort. And notwithstanding all these glaring inconsistencies, Iowa may be relied upon to return her usual majority of 50,000.

A VIRGINIA paper instances prosperity of cities in that State as follows: "Danville has built fifty large factories and warehouses since the war. Her population has doubled and except perhaps Norfolk, her's is the most active and prosperous population in America. In Petersburg scores of tobacco factories and nine cotton factories have been renovated or started since the war. Lynchburg, Staunton, Salem, Abingdon and Harrisonburg, all have vastly grown and prospered, while all along the railroads villages have sprung up and are rapidly growing."

LONDON is, on the whole, the healthiest capital in the world, its average annual mortality not exceeding twenty four per 1,000, but in some districts, the mortality varies from forty to sixty per 1,000, the increase being from filth, foul air and crowding. The population increases at the rate of 40,000 year.

THE Signal Service is being put to a new use, which was not provided for when it was established. The observers at the different stations are ordered to report the condition of affairs as regards the strike in their vicinity. Wonder if "Old Probabilities" means to furnish predictions?

IOWA is going to have a regular political jollification this year. Four tickets in the field—Democratic, Republican, Greenback and Temperance. It is not certain that the Grangers won't take a hand too, as among 90 many they might make a "scratch."

All newspaper correspondents and the English and French military attaches have been expelled from the Turkish camps in Bulgaria. The Russian landwehr has been called out. The embarkation of English troops for the Mediterranean commenced Thursday. John Bright says to prevent Russia approaching Constantinople would deprive her of one of the commonest rights of belligerents. The late eruption of Cotopaxi caused the loss of many lives and the destruction of more than \$1,000,000 worth of property. Russia is sending 80,000 additional troops to Asia Minor. A strong force is being concentrated by Russia before Plevna. Chief Joseph is reported near Missoula valley, Montana. Gen. Howard has sent a courier to Dalles City, Oregon, to get the Warm Springs Indians, so successful in the Modoc war, to accompany him on the Lolo trail as scouts.

Two libel suits have lately been brought against the San Francisco Chronicle. Senator Sargent asks for \$25,000 for a libel, based on a publication on May 15th, which stated that he (Sargent) had corruptly received money on Pinney's bogus checks; and again, on July 18th, charging him with corresponding with Secretary Thompson to suppress testimony. Laura Whittemore, formerly employed in the Customhouse and Mint, has brought a libel suit in El Dorado county, claiming \$30,000, for the publication of an article in which it was alleged that she had been the mistress of Congressman Page.

THE remains of Custer and other officers who fell with him in the battle of the Little Big Horn, June 25, 1876, have been recovered and conveyed by steamer to Ft. Lincoln. At that post suitable caskets are awaited in which to forward the bones of the gallant soldiers to their friends in the East.

SALT LAKE TRIBUNE: Brigham Young, who swears to an income of \$75,000 a year, says seventy-five cents a day is enough for any workman. He is the chap who promised to send his serfs to fill the places of the Union and Central Pacific boys at one dollar per day, in case of a strike on those roads.

In Ventura county, Cal., recently, a company boring for oil on Sulphur Mountain, struck green oil at the depth of 260 feet. The oil is of excellent quality, being of gravity 40 degrees, which is almost identical with the finest Eastern product. The capacity of the well is about 300 barrels per day. SENATOR SARGENT has commenced a little libel suit against Frank Pixley and the Argonaut publishing company, based on an article printed in the Argonaut of July 14th, saying in effect that Sargent is responsible for the loss of \$1,000,000 through Pinney's operations. Damages are laid at \$25,000.

WASHINGTON, July 26.—The following telegram was received to-night from Yankton, Dakota Territory, by the Secretary of War: "The following telegram is just received from Deadwood, dated July 25: The Agency Indians are murdering citizens and destroying property in all parts of the country. Twenty ranchmen are already dead. Seth Bullock, Sheriff of the Territory, has no arms or ammunition. Can a disposition of troops be made that will give the Back Hills settlers some protection?" JOHN C. PENNINGTON, Governor.

THE dispatch was referred to Lieutenant General Sheridan.

WILL NOT RECEIVE IT.—The Union Pacific Railroad Company refuse to receive the tea which has been shipped over the Central Pacific during the past week, and the entire cargo, amounting to nearly 200 car loads, is now lying at Ogden. Their reason for not receiving it is that they are afraid of a strike, and that in such an event the tea would undoubtedly be destroyed by the strikers. It is therefore thought best to let the tea remain where it is, as there is not likely to be any trouble on the C. P.

Yesterdays Reno Journal: We hear there was a shooting scrape in the mountains yesterday, by which Mr. Murray, whose family resides on Plaza street, was seriously if not fatally shot. He and McDonald had a row, about which we could not learn. The ball struck in the left hip and ranged downward. The shooting occurred between 8 and 9 o'clock last evening. Medical aid hurried to the man's assistance.

The Winnemucca Silver State says stockholders in the Humboldt Agricultural, Mining and Mechanical Society in "Southeastern Oregon, Idaho and Battle Mountain, as well as in this immediate vicinity, are all working with a will to awaken a competitive spirit in the people of their respective communities, and the races and stock exhibition will undoubtedly excel in number and interest those of former years."

Genoa News: Mr. Bales will harvest about 150 tons more hay this season than common. The low stage of water in the Carson river this summer renders it possible to cut many acres of land that are usually overflowed. Several other farms along the river are benefited in the same manner, while others on dryer land have suffered from lack of water. Judging from reports of farmers from different parts of the valley the aggregate yield will fall little, if any, short of last year. California people are already getting anxious to know where their hay is coming from next winter. If they need it we can send them a few thousand tons. At any rate the chances are that they will not ship much to this State, and that prices will be considerably in advance of last year.

DEADWOOD, July 26.—A large mass meeting was held this evening for the purpose of organizing for home defense against the Indians. The county commissioners issued a proclamation offering a reward of \$250 for every Indian killed or captured in the limits of the county.

A courier from Spearfish, just arrived, reports the return of Lieutenant Lemly and command to that place. WASHINGTON, July 26.—The following telegram was received to-night from Yankton, Dakota Territory, by the Secretary of War: "The following telegram is just received from Deadwood, dated July 25: The Agency Indians are murdering citizens and destroying property in all parts of the country.
